Eshel Eyni
Full Stack Developer

PROFILE

I'm interested in pursuing a Full Stack Development position where I can utilize and enhance my existing development skills. My aim is to further refine my coding proficiency and contribute to the creation of innovative software solutions.

My interests lie in programming, art, and anything smart.

EXPERIENCE

FULL STACK DEVELOPER

February 2023 - Present

IDMR Solutions Inc. l Ra'anana

IDMR Solutions Inc. provides aviation industry software for enhanced efficiency and compliance, featuring automated workflows and centralized document management.

- Design and implement new functionalities within a mature system utilizing SQL Server to enhance system capabilities.
- Develop robust user interfaces employing XSLT templates and jQuery to ensure an optimal user experience.
- Identify, troubleshoot, and resolve software defects to maintain system functionality and reliability.
- Document project developments and technical specifications using Axosoft to maintain clear and comprehensive project records.
- Collaborate effectively in English with a global team based in India and the United States to align on project goals and deliverables.

THEATER TEACHER

October 2021 - July 2022

Cut Communication l Tel Aviv, Tzahala

- Predominantly, my work was situated within an elementary school environment, where I had the e fulfilling opportunity to introduce young minds to the captivating world of drama and cinema
- This role enabled me to blend my passion for teaching with my expertise in film, thereby fostering a love for these art forms within the students.

SHORT-TERM ENGAGEMENTS

2015-2021

During my pursuit of a GED and subsequent degree, and amid the challenging circumstances of the COVID-19 pandemic, I engaged in several short-term engagements to broaden my skill set and gain practical experience.

- Barista
- Customer Service
- Food Retail Management

PROJECTS

DevQuiz - Code trivia app
- Github
- Live instance
